NIPPON PAINT

HIGH PERFORMANCE FLOOR COATING

EXCELLENT & DURABLE PROTECTION FOR FLOORING

INDUSTRIAL FLOORING

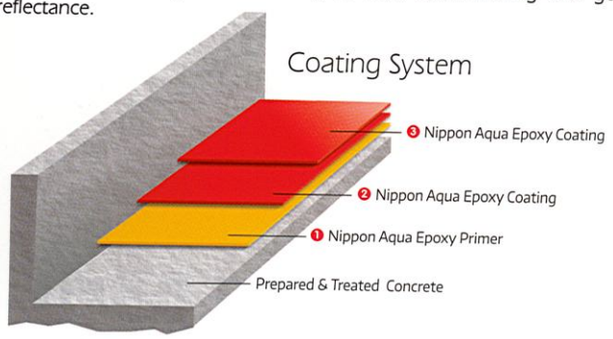

CAR PARK FLOORING

INDUSTRIAL FLOORING

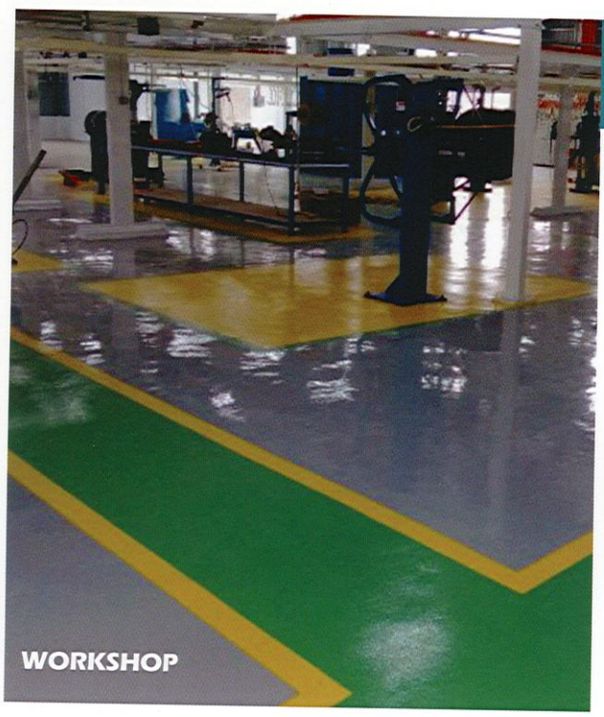

Nippon FloorShield
AQUA EPOXY

Nippon FloorShield Aqua Epoxy is a Green Label certified water-based epoxy with non-added lead and mercury. It is specifically formulated as an economical and abrasion resistance to light traffic industrial, institutional, and commercial floor. It provides an easy to clean satin finishing with good light reflectance.

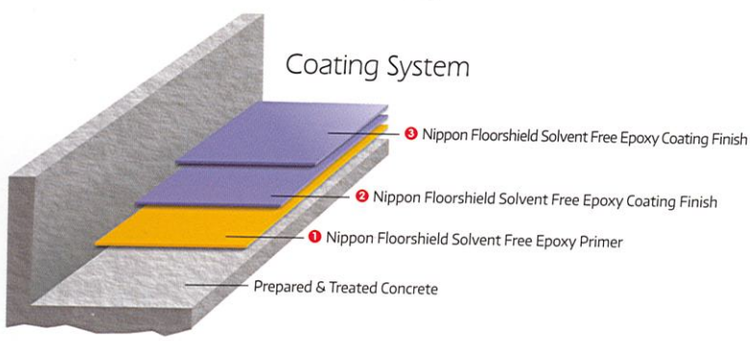

Light Traffic · Satin · Water-based · Easy to Clean · Anti-Slip (Optional)

GREEN CHOICE SAFER FOR YOUR HEALTH

Nippon FloorShield
SOLVENT FREE EPOXY

Nippon FloorShield Solvent Free Epoxy is a coloured, ready-to-use and solvent free sealing compound of high-grade epoxy resin. It produces 100% solid and abrasion resistant coatings. The coatings exhibit a good resistance to fuels, lubricants, most solvents and many chemicals. It used as a coloured coating for surfaces with medium mechanical stress and traffic.

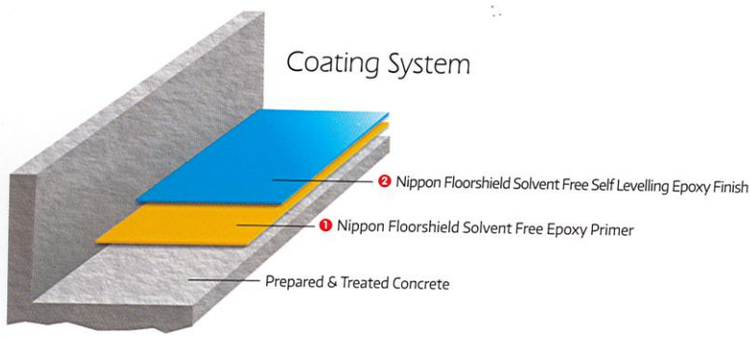

Medium Traffic · Gloss · Solvent Free · Easy to Clean · Chemical Resistant · Anti-Slip (Optional) · UV Resistant (Optional)

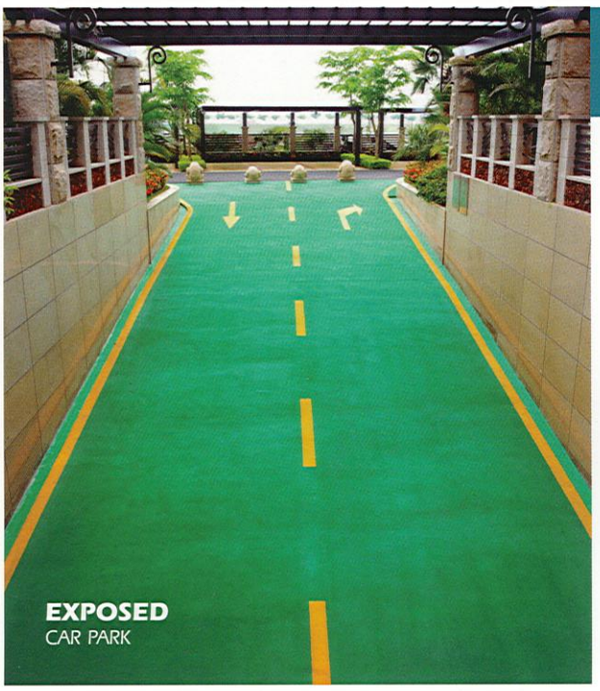

Nippon FloorShield
SELF LEVELING EPOXY

Nippon FloorShield Self Leveling Epoxy is a self-smoothing epoxy resin floor finish. It is designed to withstand high impact activities such as fork-lift traffic and chemical spillages in industrial and warehousing floors.

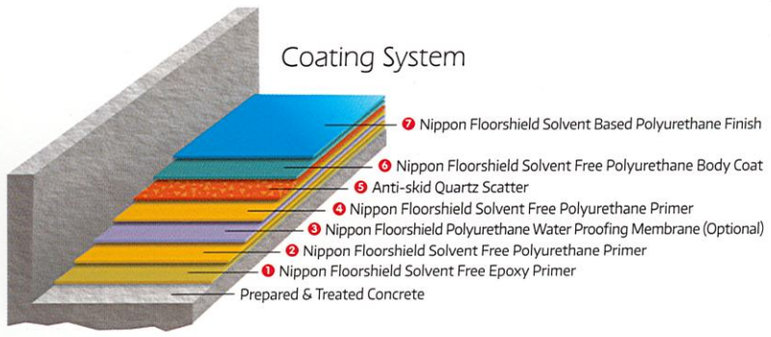

Heavy Traffic · Mirror Gloss · Solvent Free · Easy to Clean · Chemical Resistant · UV Resistant (Optional)

CAR PARK FLOORING

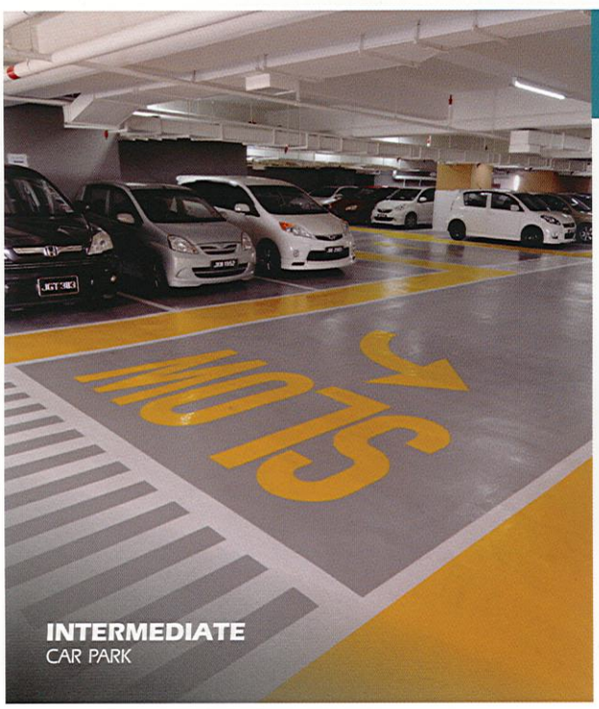

Nippon DeckGuard
EXPOSED DECK ED

Flexible 100% polyurethane build-up system incorporating trafficable effective waterproofing system is designed specifically for exposed car parks where extreme weathering exposures and high wearing activities from the vehicular traffics imposes synergistic stress to conventional car park system.

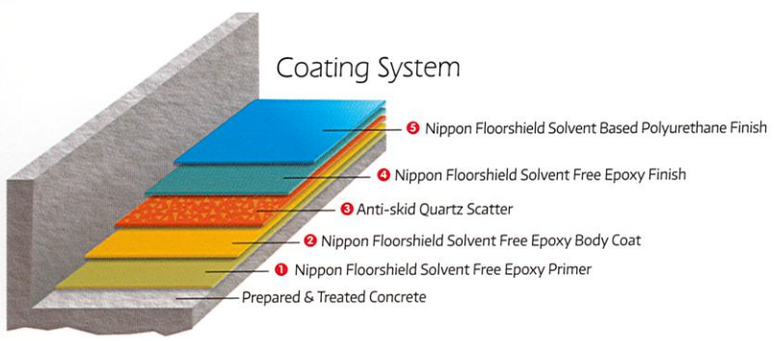

Nippon DeckGuard
INTERMEDIATE DECK ID

Water-tight 100% polyurethane build-up system is made from tough and flexible unique polyurethane chemistry. It absorbs movements and flexing of intermediate and suspended car park deck structures while providing hard wearing anti-slip surface for the stable handling of vehicles.

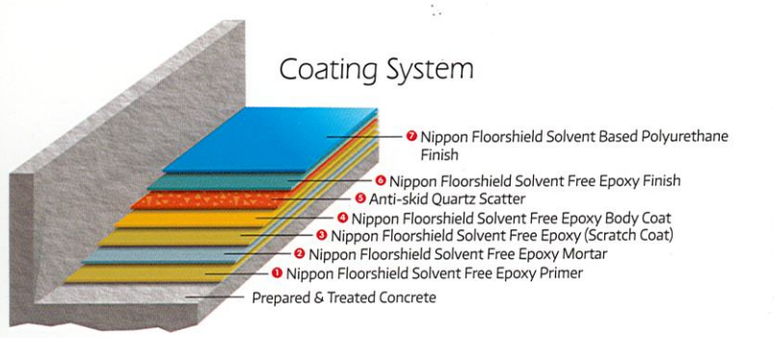

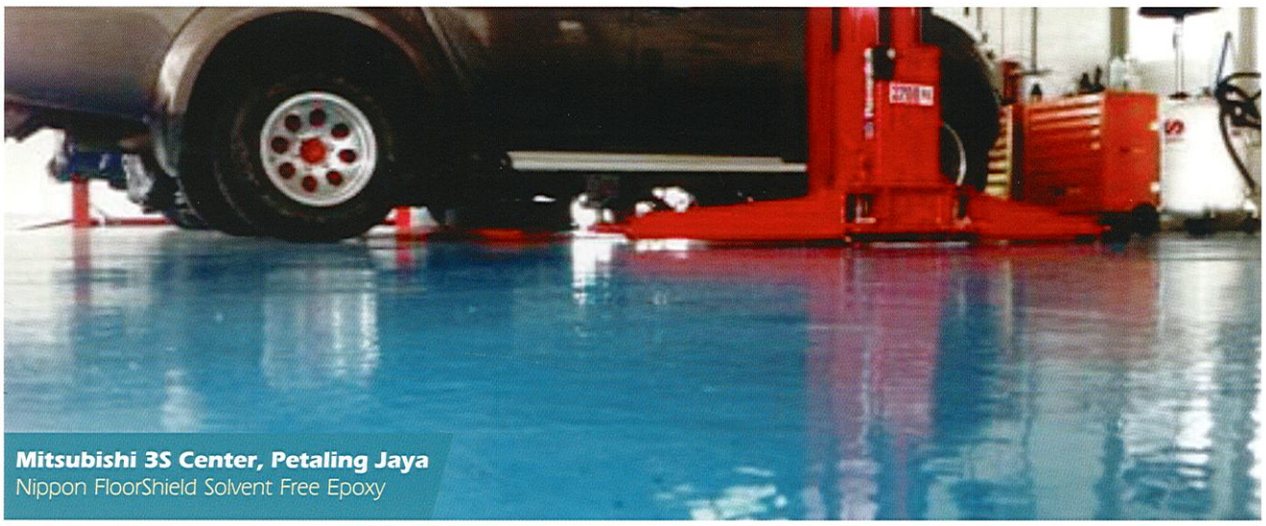

Nippon DeckGuard
BASEMENT DECK BD

Flexible water-tight 100% polyurethane build-up system incorporating hybrid moisture barrier system designed specifically for basement car parks where high moisture in the substrate and high wearing activities from the vehicular traffics imposes synergistic stress to conventional car park system.

Colours presented are as close as modern printing technique allow. Due to differences in production methods, pigments and gloss levels, deviations may occur between the samples and delivered products. Different batch numbers should be blended before use. For critical colour matches, please prepare an on site sample application before proceeding with the entire job.
