SHOW YOUR TRUE COLOURS

In the ever evolving world of trends, it is important to look at colours and styling influence through "modern eyes". While we know that trends change according to what's in and what's not, everyone has their own favourite colour that shows off their personality.

Have you ever wondered what colours best suit yours?

There is no place where the influence of colour is felt more keenly than your home, where you can have the power to express yourself. Whether you're a Winsome Blue or a Thunderball Red, passionate by nature or mysterious in your own ways, your favourite colour reveals who you are.

Let Seamaster Paint's "**Our Colours, Your Style**" help you discover your unique colour combinations. We help you choose the colours that will allow you to create your own personal space that evokes a specific style or one in which you feel inspired by. We've put all of our colour combinations together for you to decide on.

At the back of this book, we have "**Your Colours, Our Guide**" where you will find constructive painting and decorating advice to make it easy to do up your home in a fun and fabulous way. Along with it, you can learn more about the vast range of products we carry.

Be true to yourself and happy painting!

COLOUR GUIDE

A colour wheel is an illustrative organisation of hues around a circle that shows the relationship between primary colours, secondary colours and complementary colours. Traditional colour wheels consist of 12 colour families:

I PRIMARY COLOUR

RED, YELLOW, BLUE are regarded as free from white or black. They help us create the 12 colour families in their relative hues.

II SECONDARY COLOUR

Mixing any two of our primary colours - VIOLET, GREEN, ORANGE

III TETIARY COLOUR

BLUE+GREEN, BLUE+VIOLET, RED+VIOLET, RED+ORANGE, YELLOW+ORANGE, YELLOW+GREEN

MONOCHROMATIC SCHEME

Monochromatic colours are tints, tones and shades of a single hue. A combination of light and dark tints/ tones/ shades from the same family creates a harmonious look.

COMPLEMENTARY SCHEME

Complementary colours are colours that are opposite from each other. The big contrast between the colours create a vibrant look.

ANALOGOUS COLOURS

Analogous colours are colours that are adjacent to each other. This scheme is created using colours that share the same undertones.

TRIADIC SCHEME

This is a colour scheme in which three colours of equidistant distribution are used. Often one colour is chosen as the dominant base while the other two are used as accents.

CONTENTS

01. breezy — You're easy going, even-tempered and love simplicity.

02. sunny — You're young, bubbly and sweet. Always cheerful and full of life.

03. au naturale — You're for all things natural. Fresh is your middle name.

04. islander — You’re bursting with energy and have a love for the sun, sea and sand.

05. whimsical — You’re one of a kind. Always an attention grabber, you stand out for being different.

06. desirous — You're full of passion for life and is never afraid to express.

COLOUR OF THE YEAR

We are proud to announce Hydrangea – a captivating mix of pinkish-red that is youthful, fun and exciting – as our first colour of the year.

Hydrangea adds a lively flair to interior spaces with decorative accessories and perks up your home if used as the main backdrop in the family room or kitchen.

An addictive shade, it makes a statement on the walls of your home. The colour is inspiring and enriching. Upbeat and dynamic when used in large spaces, it is a catalyst for conversation.

This arresting shade gives a burst of energy and adds a fun touch to the table in placemats, candles or other decorative pieces. For some, the shade can be too much of a colour statement, so try highlighting a key architectural detail such as painting on doorknobs.

Explore a blend of colour that go with your personality through our palette and get the best of every world:

This is for someone who loves simplicity. A palette that is anything but boring, these shades are well liked due to their versatility and flexibility. Like the character itself, they are easy to live with and are great companions to all things you love. Timeless and practical, they get along well with any colour and can make any space look classic or contemporary, chic or cosy.

A mix of deep and soft neutrals, they are perfect for creating a frilly, delicate bedroom or fashionable kitchen and living room. Greys and close to blacks add a little drama especially when used with animated pastels. Browns are genuine and down-to-earth, which creates an interesting, tranquil space.

All colours shown are as close to the actual paint colours as modern printing techniques will allow.

MONOCHROMATIC

Combining different tones and shades of neutrals makes it easy to match the various elements in your room.

ANALOGOUS

Neutrals complement bold hues very well. This combination will strike a unique balance in the room.

COMPLEMENTARY

Contrasting colour combinations highlight the best of each shade, giving them a strong presence.

TRIADIC

The combination of deep neutral with vibrant shades can produce a result that is quite interesting.

Known for his/ her sunny disposition, this is for someone who is bright and uplifting. An innovative palette, it encourages spontaneity and is full of energy while still being soothing and stylish. Always cheerful and expressive, these colours are the perfect solution for dark hallways or rooms that lack natural light.

Yellow helps expand any space and create a sense of freedom. Sunny yellows bring in the sunshine and the fun. They create a sense of youthfulness to any space and offers an island vibe we all love so much. Neutral yellows delight everyone and inspires. They work well together to elevate ordinary whites and creams, creating an element that is romantic without being overly sweet.

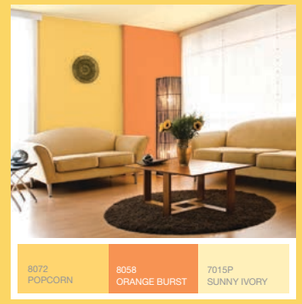

All colours shown are as close to the actual paint colours as modern printing techniques will allow.

MONOCHROMATIC

For an elegant look, tone on tone combinations provide an atmosphere that showcase decorative elements in a room.

ANALOGOUS

Yellow and oranges are the most harmonious colours to different shades of yellow and create interesting and pleasant surroundings.

COMPLEMENTARY

Daring and vibrant, these colours create a dynamic environment and deliver an exciting interaction.
